Develop Leadership Skills

If you’re committed to being a leader, then you know that you need to continually acquire new skills, tools, and techniques while improving existing ones to move up in your organization. Take the lead and guide your efforts for success by earning UW–Madison’s Technical Leadership Certificate.

Benefits

Technical Leadership Certificate course topics were developed with your success in mind, by consulting with hundreds of engineers from leading companies. Develop leadership skills in such areas as managing technical teams, coaching, and project management. In addition, you’ll learn technical management topics, including capital budgeting and business process improvement. The mix of courses offered by the College of Engineering and the Wisconsin School of Business – taught by UW faculty and industry experts – are constantly updated and improved to meet the needs of our global partners.

Show Your Commitment To Your Career

There is no cost or commitment to enroll in the certificate – by signing up you will receive discounts on individual courses.

Who Should Enroll?

Technical professionals who are currently in – or expecting to move into – a leadership or management role and want to affirm their commitment to improving their management effectiveness.

“ I use the lessons acquired in my Technical Leadership Certification every day in my leadership position.

Douglas Cole
